Note \*\* pour la page précédente. — Le chiffre de la population probable au 1 juillet 1947, a été calculé par l'addition successive des excédents naturels annuels de la population aux chiffres obtenus au recensement de 1941 pour le territoire réduit du pays de 1940 et à ceux du recensement de 1930 pour l'ancienne Transylvanie de Nord, obtenant ainsi un total de 16.520.000 habitants. Ce chiffre dépasse de 660.000 âmes la population dénombrée au recensement du 25 janvier 1948. La différence en moins est due aux pertes de vies causées par la guerre et au solde négatif des migrations. A partir du 1 janvier 1948, le chiffre probable de la population sera calculé par rapport aux données du recensement de 1948.

## N O T Ă

Datele provizorii de mișcarea populației pe 1947, cuprinse în această broșură, au apărut și în Buletinul Demografic Nr. 1—2 din 1948.

Dintr'o regretabilă eroare, în datele de mișcarea populației pe 1947 ce au apărut în Buletinul Demografic sus amintit, s'au strecurat unele greșeli în coloanele 5 și 6 ale tablei II «Decesele pe cauze după nomenclatura internațională detaliată, tratament medical, sexe și grupe de vârstă».

Vor fi considerate corecte proporțiile publicate în coloanele 5 și 6 ale tablei II din extrasul de față.

## N O T E

Les données provisoires sur le mouvement de la population en 1947, comprises dans cette brochure ont été publiées également dans le Bulletin Démographique Nos. 1—2 de 1948.

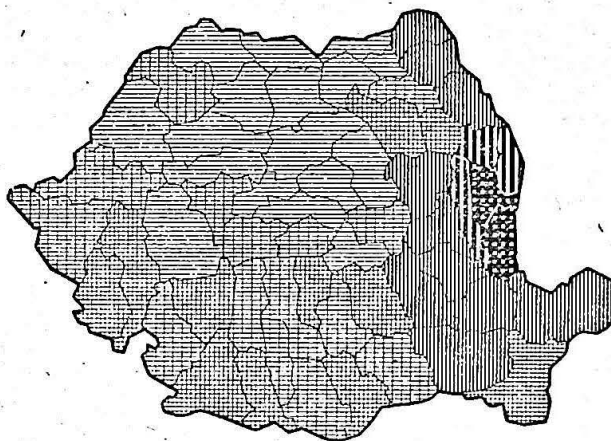

Par une regrettable erreur, dans les données sur le mouvement de la population en 1947 parues dans le Bulletin Démographique plus haut cité, quelques fautes ont glissé dans les colonnes 5 et 6 du tableau II «Décès par causes selon la nomenclature internationale détaillée, traitement médical, sexe et groupes d'âges».

Seront considérées correctes les proportions publiées dans les colonnes 5 et 6, deuxième tableau, du présent extrait.
